

PAOLO TROMBETTI

Professional profile

Paolo Trombetti boasts over **35 years of experience in the Telecommunications sector**, focusing on materials engineering for telecom networks, equipment, and the application of **no-dig technologies** for the development of TLC networks.

He has served as a **"Rapporteur"** in ITU (International Telecommunication Union) committees for the definition of guidelines regarding the Telecommunications sector. He is the author of numerous Best Practices within the **CEI** (Italian Electrotechnical Committee).

Since July 2024, he has been working within the **Chief Technology & Operations Officer** department at **FiberCop Spa**. In this capacity, he manages the definition of agreements with public and private entities regarding **rights of way** and the application of no-dig systems. He has participated in numerous Working Groups dedicated to defining national laws regulating the use of trenchless technologies, such as Legislative Decree no. 33 of 2016 and the so-called "Decreto Scavi" (Excavation Decree) of October 1st, 2013.

Since 1999, he has served as **President of IATT** (Italian Association for Trenchless Technology). He represents the trenchless sector in **ANCE** (National Association of Building Constructors) and in **UNINDUSTRIA** Rome and Lazio.

He is the author of numerous articles published in industry journals, a member of various editorial boards and scientific committees at national and international conferences, and a speaker at numerous seminars and workshops. He has given various interviews to television channels and newspapers.

From 2014 to the present, he has contributed to the publication of numerous Reference Practices in collaboration with **UNI** (Italian Standardization Body). Since 2023, he has been the **coordinator of GL04 "Trenchless Technologies"** within the UNI/CT 058 Technical Committee "Sustainable Cities, Communities and Infrastructures," which manages all procedures for transforming Reference Practices regarding low-environmental-impact technologies into Technical Standards.

Since 2024, he has been registered in the Special Section of the **Order of Journalists of Rome** and holds the position of **Editor-in-Chief** of the magazine **ITALIA NO DIG**, the official journal of the IATT.
