

Andrea Guerrini

Andrea Guerrini is a Member of ARERA, the Regulatory Authority for Energy, Networks and the Environment, and Permanent Vice-President of WAREG, the Association of European Water Regulators.

From 2016 until his appointment to ARERA in August 2018, he served as Chairman of the Management Board of Azienda Servizi Ambientali ASA S.p.A. in the Province of Livorno.

Andrea Guerrini is a Professor in the Department of Business Economics at the University of Verona, on mandatory leave since his appointment to ARERA.

He has participated in numerous European Union-funded research projects and co-founded the University Research Center WaMaTeRC (Water Management Technology Research Center).

Prof. Guerrini contributed to the development of the tariff methodology for the Integrated Water Service of the Autonomous Province of Bolzano.

He is the author of numerous publications, including monographs and articles in international journals. In 2014 he wrote an international monograph entitled “Water management in Italy: Governance, Performance and Sustainability” and in 2018 he wrote the book “Management of water service companies. Operational manual for management and control”.
